

SUPER MOBILE Series

Projection Screen

Fast Fold Screen

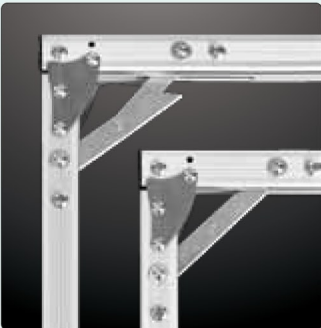

Ideal for Movable Presentation

- The screen is convenient to sturdy and easy to carry, benefited from its professionally designed aluminum alloy frame and the solid connrner design by helping increase the rigidity of the overall structure.
- Only 10 minutes is needed to extend or fold a screen even is 200" size
- Fixing by multiple points on each frame bar, it ensures the screen to be installed flat and wrinkle-free, also the innovative fold-and-lock mechanism helps making setup and take down easy
- With standard flight case option, the screen is easy to

Professional Viewing Quality
The screen is fixed by multiple points on each frame bar. This ensures the screen will be installed flat and wrinkle-free.

Innovative Design
The innovative fold-and-lock mechanism helps making setup and takedown easy. It also ensures the frame is firm and secure during use. The solid corner design adds safety by helping increase the rigidity of the overall structure.

Practical, Durable and Portable
The professionally designed frame is sturdy yet light and easy to transport. All pieces including the frame, support and screen fabric are designed to fit into one case which greatly saves space for transportation.
