Lighter and Faster Than Ever

Grandview's X-press series pull-up screen uses patented technology that allows it to be setup and taken down with minimal time and effort.

- The lightest compare with similar product, 70 inches only 7kg.
- Single button locking mechanism easy to carry and operate, fully pull up only in 3 seconds.
- The self-supported arms allows any screen position to be set.

Grandview product

Theself-supportedarmsofGrandview'sCyberX-Press series screens are specially designed to sustain pressure from any angle, thus allowing the screen to extend and retract freely without limitations.

Othes Product

The supported arm has a stress limitation couldcausethescreentobesuddenlycollapsed while the screen is retracting back.
