

## FLAT FRAME SCREEN - FP

[ 92"-200" ] 90 mm frame, hand wrapped velvet

### Design and Installation

- 60mm/90mm width aluminum black frame is velvet coated
- Elegant velvet covered frame absorbs projector overshoot and increases picture contrast
- Permanently tensioned fixed frame screen provides uniform flatness across entire surface
- JOINT-frame design facilitates lower shipping costs without sacrificing quality
- Wall brackets allow screen to slide horizontally for a properly centered installation

Unique fabric tension design    Seamless corner connection

FP series is the perfect choice for a stylishly sleek home theater experience. Enjoy an ultra-flat projection surface accomplished by a patented fabric tensioned system while the plush black velvet finish aluminum frame absorbs projector light overshoot. It's easily assembled in minutes and is ready for installation using the included sliding wall mounts and installation kit.
