

CURVED FRAME SCREEN- FC

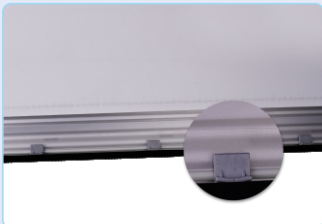

[92''-200''] 60/90 mm frame, hand wrapped velvet

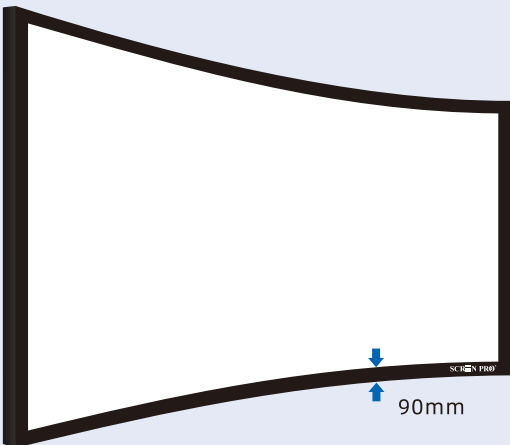

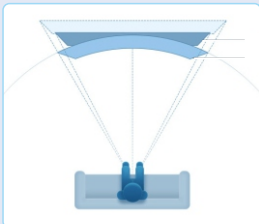

Design and Installation

- Curved Frame Home Theater Front Projection Screen
- Curvature enhances contrast levels with decreased incident light while creating a heightened sense of immersion
- No specialized projector required
- Velvet covered 90mm width aluminum frame border
- JOINT-frame design facilitates lower shipping costs without sacrificing quality
- Sliding wall mounts provide adjustable horizontal centering
- Adjustable fix plates provide equal tension over the entire projection surface

The curved fixed frame screen with 90mm black frame borders with velvet material. The curved screen is designed to improve image depth and perception while increasing brightness uniformity.

Unique fabric tension design
